Dear Harold,

Enjoyed our conversation. Hope you and your wife are feeling better soon.

As per the enclosure, I do not believe the Mafia killed J.F.K. albeit the involvement of Mafia figures is possible. The F.B.I. "investigation" of Braden was incompetent.

Of course, Ferrie, McLaney Roselli are linked to the CIA as well.

As the Pentagon Papers suggest (by document) it would appear that the assassination reversed Vietnam policy and this as well as the investigation was ordered at the highest levels.

Saw an interview with Warren. amusing. He has never seen any evidence to contradict the W.C. No doubt!

There were two theories (Russia/Oil men) and Re

investigated both. Untrue but amusing.

The press on Watergate — fantastic.

I found Mae good by comparison.

Yes, The Bremer Diary is out of context. Could it be otherwise.

"The Ari O. investigation" (an obvious cancel) gets a play.

Is that not typical!
